Lawyer Goff Has Heard Nothing from the Senator About It.

Harry Hill in Conference with the Inquisitor.

Arranging the Programme of Work for This Week.

Rumors of all sorts were floating bout this morning concerning the programme of the Lexow Investigation for the coming week, the prospects of a continuance of the sessions into July. and the probable connection between this and the announcement by Mr. Croker that he will cut short his stay in Europe and return to this city early in July

Mr. Goff, the leading counsel of the Committee, was mute upon all these subjects this morning. He reached his office early and settled down to work immediately preparing for the reopening of the investigation to-morrow.

Old Harry Hill, who proved such a interesting witness last week, was waiting for Mr. Goff, and for some time after the latter's arrival was closeted with him in his private office. When he went on the witness-stand last week Harry said that he was unprepared to of his transactions with Cant Murnhy

of his transactions with Capt. Murphy, the amounts of payments, and the like, because he had not his memoranda with him. He promised, however, to produce these at some future time, and Mr. Goff intimated that he would recall him before the sessions cloued for the Summer. When Mr. Goff was seen by the reporter of "The Evening World" and asked whether the prospective return of Mr. Croker would lead the Committee to thange any of its plans, he replied that, as he had nothing to say about Mr. Croker's departure for the other side, he must decline to say anything about his return.

"Has it been definitely decided that the return.

"Has it been definitely decided that the Committee will adjourn at the close of the present week?" he was asked.
"No, it has not," replied Mr. Goff, "but that is all can say about it at present."
"It depends upon your decision in the matter, does it not?"
"Well, in a measure presume it does, but I don't sare to discuss that question."
Mr. Goff was also asked in regard to the banquet to be given by Chairman Lexow to the other members of the Committee and Counsellor Sutherland at his Nyack residence to-morrow night, to which it is said the chief counsel has not been invited.

In addition to those received up to Friday, making the total up to date 10!; and fifty more will probably be received by Monday morning. The trial to lower the New York State record promises to be very interesting. Among the Class A riders are Mr. B. Zalmea, who, although comparatively unknown to the public here is well known in the New England States. He is from South America, and is riding in great form. In the mile open Class B event a hot contest is expected between Messrs. Bald. Taylor, Murphy, Titus and Miller. There is great rivalry between Willis, Brown, McDonald, Goodman and Blauvelt, which should make things interesting in the one-mile Class A event. Among the teams which will be represented are the Victor, Columbia, Spalding, Rambler, Sterling, Stearns and Eclipse. The Riversides are confident of winning the Class A team race; so are the Elizabeths. There will be a trotting exhibition after the bicycle races are over.

To these lofty gentlemen he gave battle singlehanded in the final encounter on Bosworth Field, and the scene was a particularly effective one. Among the supernumeraries was Thomas McQuillan, a sturdy, grizzled veteran of the British army. It is for the horrible butchery of this same McQuillan's wife and daughter that Lizzie Halliday is to be put to death. After his stage experience with Mansfield the old warrior
